

Approximate Current Broadband Availability

Notes:

- * Cable modem coverage is based on cable company annual report filings through 2005. Non-Adelphia coverage does not include some post-2003 line extensions, but those not included are minor in extent.
- * DSL coverage is through January 2005, with some updates for Verizon Central Office DSL deployments through the end of 2005. DSL coverage includes ILEC and CLEC coverage areas. Verizon-area coverage is estimated and may over- or understate the geographic area served. A small number of Verizon Remote Terminal DSL deployments that happened later in 2005 are not shown.
- *Wireless ISP coverages are radiofrequency propagation estimates, where available. In some cases, approximate base station locations are shown where coverage estimates are not available.
